School Directory

How the School Directory Information is Used:

- District and School Test Coordinator Contact Information:
 - Updating the Test Coordinator Listserv (starting in August)
 - Mailing paper test materials
 - Mailing paper student score reports (mailed attn. to district test coordinator)
 - Creating user accounts for:
 - RICAS: PearsonAccess^{Next}
 - DLM: Kite Educator Portal
 - ACCESS: WIDA AMS
 - NGSA: TIDE
 - PSAT10: College Board TIDE
- How to update district and school coordinator information
 - View current contact information: www.eride.ri.gov
 - Click on SCHOOL DIRECTORY on the left-hand menu
 - Need to update the School Directory Information?
 - Contact your district data manager
 - Districts and outplacement schools can Contact Mario Goncalves, Office of Data, Analysis, and Technology, Mario.Goncalves@ride.ri.gov if they need to update who has access or to get access to the school directory.
 - RIDE will contact any district or school that has missing information

Enrollment Census

- How the Enrollment Census is used:
 - Registering students for *all* state assessments
 - State assessment reporting
 - Accountability calculations and reporting
 - For accurate accountability calculations, all students must have an active enrollment record.
 - Determining state and federal aid:
 - If a student does not have an active enrollment record, he/she will not be included in state and federal aid calculations.
- Timeline*:
 - **June 28:** Last day for districts to upload enrollment census data
 - **June 28 – July 19:** District review
 - **July 19 – July 25:** Electronic sign-off by the superintendent or their designee. This sign-off generates a report to the superintendent.

*Mario Goncalves (RIDE, DATS Office) will work with district data managers to ensure that districts complete this process.
If you have questions, please contact your district data manager.

Enrollment Codes: Clarification

- Enrollment codes help us register the correct students for state assessments and reporting as well as for aid determinations. Clarification on codes:
 - R: regularly-enrolled student; the school the student attends each day.
 - 190-school: Each LEA has a “190” school to be used as the “responsible school” or “home school” when a student attends an outplacement school. The actual outplacement school is recorded in the Special Education Census.
 - A: alternate learning program. The student’s school code should be the home school. The learning program should be the schcode_out. Example: a student at the Davisville Academy should have the school code of North Kingstown High School and the schcode_out should be Davisville Academy.
 - N: transition students (18 years or older). The student’s school code should be the 190 school and home school should be the schcode_out.
 - H: Home Schooled. Must have an active enrollment to participate in state assessments in order for results to be reported accurately.

RICAS Early Reporting: Results and Guidance

Chris Castillero, Mathematics Specialist

RIDE Rhode Island
Department
of Education

What is currently available - RICAS

Item Type	ELA Items – 24	Mathematics Items – 40
Machine Scored – Available	1 and 2 point (3-8)	1 and 2 point items (3-8)
Hand Scored - Not Available	3 point (3 and 4) 7 point (3-5) 8 point (6-8)	4 point items (3-8)

Item analysis can be done by categorizing:

- overall averages by district or school,
- item type,
- or reporting category.

However, the data provided in the early release file will not produce accurate results without the hand scored items points.

Guidance

- Guidance is available for LEAs/schools that would like to look at available results based on the items in ELA and Mathematics.
- Available at www.ride.ri.gov/Assessment-Results

Guidance

The guidance document will assist educators in transferring the Districts'/Schools' data to the Early Release Templates for analysis.

Start by downloading and opening the Early Release Report File from PearsonAccess^{Next} (PAN):

- Go to REPORTS, then to PUBLISHED REPORTS for your LEA/school, and then follow the steps in the guidance document.

Guidance

Once done, the analysis graph should look similar to this:

This graph is now ready to customize for district/school use
